SUMMARY

Full-stack software developer with 1+ years of professional experience building scalable web applications using MERN stack and Spring Boot. Strong in JavaScript/TypeScript and Java, with hands-on experience in developing RESTful APIs and responsive user interfaces. Seeking opportunities to contribute to high-impact engineering teams.

TECHNICAL SKILLS

Programming Languages: JavaScript/TypeScript, Java, Python, SQL
Backend Technologies: Node.js, Express.js, RESTful APIs, Spring Boot (Data JPA, MVC, Security)
Frontend Technologies: React.js, Next.js, Redux Toolkit, Tailwind CSS
Databases: MongoDB, PostgreSQL, MySQL, Redis
Cloud & DevOps: AWS (EC2, S3), Docker, Git/GitHub, CI/CD, Postman, Linux
Tools & Concepts: Microservices, JWT Authentication, Agile/Scrum, Jira, System Debugging

PROFESSIONAL EXPERIENCE

Junior Software Developer

Jan 2025 – Present

PeerMe Software Technology Pvt. Ltd.

Bangalore, India

- Developed and maintained scalable frontend modules using React.js for production web applications
- Built reusable UI components using JavaScript, HTML, CSS, and Tailwind CSS
- Integrated frontend applications with RESTful APIs using Node.js and Express.js
- Contributed to backend development including authentication, validation, and API optimization
- Resolved production bugs and improved application performance and stability
- Collaborated with cross-functional teams in Agile sprints to deliver features on time
- Participated in code reviews and followed industry best coding practices
- Managed version control, deployments, and releases using GitHub and CI/CD pipelines

TECHNICAL PROJECTS

- | | |
|---|------|
| Real-Time Chat Application <i>WebSocket, JavaScript, Node.js, MongoDB</i> GitHub Live | 2025 |
| <ul style="list-style-type: none">• Developed real-time messaging application using WebSocket for instant communication• Implemented user authentication, private chats, online/offline status, and message persistence• Designed RESTful APIs using Node.js and Express.js for user and chat management• Optimized MongoDB queries and indexing to improve message retrieval performance• Built responsive UI using JavaScript and modern CSS techniques | |
| Task Management System <i>Java, Spring Boot, MySQL, React.js</i> GitHub Live | 2025 |
| <ul style="list-style-type: none">• Built task and project management system using Spring Boot with REST architecture• Implemented CRUD operations using Spring Data JPA and MySQL• Integrated JWT-based authentication and role-based access control• Developed frontend dashboard using React.js for task monitoring and reporting | |
| E-Commerce Platform <i>MERN Stack, Redux, JWT, Razorpay</i> GitHub Live | 2024 |
| <ul style="list-style-type: none">• Developed full-stack e-commerce platform using MERN stack architecture• Implemented secure authentication, product catalog, cart, and order management• Integrated Stripe payment gateway for online transactions• Built admin panel for managing users, products, and orders• Optimized APIs and frontend performance for better user experience | |

EDUCATION

Oriental Institute of Science and Technology (RGPV)

Bhopal, India

Bachelor of Technology in Computer Science – CGPA: 8.12/10

July 2020 – June 2024

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Advanced SQL | MERN Stack Masterclass | Python Programming | AI for India 2.0
Achievements: 4-Star rating in JavaScript and Java on HackerRank | Ranked consecutive among Top 3 performers in academics and technical competitions
