Objective

Motivated and detail-oriented Computer Science graduate eager to begin a career in software engineering. Seeking an entry-level role to leverage strong technical foundations, contribute to impactful projects, and grow professionally by learning from experienced teams and solving real-world challenges.

Education

Oriental Institute Of Science and Technology, Jabalpur   **2020–2024**
*B.Tech - Computer Science Engineering - **CGPA: 8.12***   *Bhopal, Madhya Pradesh*

Higher Secondary, MP Board   **2018–2020**
*12th Grade - **84.4%***   *Bhopal, Madhya Pradesh*

Secondary Education, MP Board   **2016–2018**
*10th Grade - **86.6%***   *Bhopal, Madhya Pradesh*

Technical Skills

Development Tools: HTML, CSS, JavaScript (ES7), Next.js (React), Spring Boot (Beginner), PostgreSQL/MongoDB, Git, Postman

Programming Languages: Java, Python, SQL

Operating Systems & Platforms: Windows, Linux, Android Studio, VS Code, IntelliJ Idea, MS Excel

Professional Work Experience

Web Developer Intern — IKSC Knowledge Bridge (Pune)   **August 2024–February 2025**

- Gained hands-on experience in full-stack web development using modern technologies such as JavaScript, TypeScript, React, Next.js, Node.js, and Tailwind CSS
- Designed and developed responsive, user-friendly websites, ensuring optimal performance and seamless user experiences across multiple devices
- Implemented and maintained robust front-end and back-end architectures to support business goals and enhance scalability
- Integrated APIs to facilitate real-time data exchange and improve functionality
- Utilized Git and GitHub for version control and streamlined collaboration workflows
- Experience in SQL, NoSQL databases and API testing using Postman and REST

Projects

ReserveTable   **Tech Stack: Next.js, PostgreSQL**

- Developed a full-stack web application inspired by OpenTable, allowing users to browse restaurants, reserve tables seamlessly and receive real-time confirmations
- Implemented user authentication and optimized database interactions with PostgreSQL, reducing query response time by 30%
- Integrated Google Maps API for location-based restaurant searches and enhanced UX with responsive UI using Tailwind CSS
- Collaborated with developers to ensure software quality throughout the development process

Task Manager   **Tech Stack: Next.js, MongoDB**

- Created a task management app with real-time tracking features and user-specific task management
- Integrated deadline notifications and secure authentication with JWT
- Enabled role-based access control to streamline user interactions and improve security

Certifications & Achievements

- Python Certificate - GUVI and Google for Education
- AI For India 2.0 - GUVI and Skill India
- SQL (Basic) Certificate - HackerRank
- 4 Star in Java Problem Solving - HackerRank
